Dear Sisters and Brothers,

As union members, we know that the decisions made at the **city council** and **school board** levels have a real impact on our work, our families, and our communities. The next election will be held on **Tuesday, November 4th**, and your voice at the ballot box matters.

These local offices make choices that affect public projects, job standards, apprenticeship programs, and how our schools prepare the next generation of workers. When union members vote, we help ensure that working families - not just special interests - have a say in shaping our future.

Make a plan to vote. Check your polling place, consider voting early if possible, and encourage your friends and family to do the same. Every vote helps strengthen the voice of labor in our communities.

Going forward if there is a candidate that you would like us to look into for a potential endorsement, please reach out to me.

Thank you for standing in solidarity and for always supporting the values that keep our union - and our communities - strong.

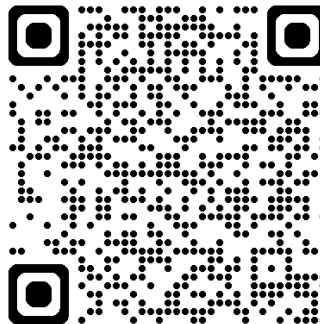

In solidarity,

A handwritten signature in black ink that reads "Stephen W. Cox".
