

Official Publication of Local Union #347

~ Business Manager's Report ~

Sisters and Brothers,
Happy New Year! I hope you are as excited as I am for what is sure to be a great one.

As you know, elected officials from both political parties and at every level of government make decisions every day that impact our lives. Furthermore, they make decisions on issues that impact our livelihood. Sometimes these are good and other times they are not so good. Nonetheless, it is important to make sure we have a collective voice on these policy issues, regardless of our political affiliation.

Having a voice in the political arena often requires businesses, associations, organizations and in particular, Labor Unions, to work together with elected leaders on issues that are important to our industry. Establishing relationships with your local elected officials is essential to helping them understand what we do and why they should support our policy agenda. This is a very important piece of the lobbying process both at the Capitol and in communities across the state. During these last weeks leading up to the 2021 Iowa Legislative Session, I am asking all of you to reach out to your local legislators. There were several retirements and upsets, so your Representative or Senator could have very well changed. Whether it be a phone call, email, or attending a virtual event or in person as you are comfortable in this current climate, introduce your local representatives to our industry, your role in it, and explain why the issues we advocate for are important.

We have a statewide network of legislators who support our industry and with sincere efforts we may be able to expand that support amongst Democrats and Republicans. Your outreach can help strengthen and foster these relationships while also developing new partnerships.

After an election, regardless of who controls the Legislature, our issues are about policy, not politics. Electrical licensure, safety standards, funding for apprenticeship programs, DAT funding for apprentices and a robust Building Trades agenda are all issues that need to be addressed moving forward and both parties will be involved in advancing and growing these priorities.

Elected officials appreciate a local perspective and you as a constituent can provide it, regardless of political affiliation. I think having our members engaged in outreach and providing a positive message will go a long way in ensuring policymakers better understand our industry. Having bipartisan relationships across the state is imperative to moving our policy agenda forward. Those relationships are only stronger when made at the local level. Together we can have a strong collective voice on issues that are important to the work we do every day. If you need additional specific information on any issue we are moving during the 2021 legislative session, please feel free to contact me at the Hall.

Due to the uncertainty of whether or not we are able to host a January General Membership Meeting, the soonest I plan to hold a vote on the recently proposed Bylaws changes will be February. Additionally, February is when we typically hold an askings meeting in a year that the Des Moines Inside Agreement is to be renegotiated. You will receive notice of these important Union business priorities prior to the meeting date(s) regardless.

This year's pin party will also be affected by COVID. You may notice that the pin party announcement is vague compared to our traditional notice. This is because we do not know whether or not we will be able to host activities such as social hour, dinner, or even live music at this point. If you feel comfortable doing so, please fill out the RSVP as you normally would. Should Prairie Meadows limit us to a specific number of people, we will start by giving the RSVP allotment to pin recipients first. If you are on the pin recipient list and you would like to receive your recognition next year instead please let us know that as well.

Brothers and sisters,

~ President's Message ~

I hope all is well with everyone who has dealt with the pandemic. I would like to remind everyone that there are some journeymen training classes going to be coming out shortly make sure we get signed up. Everyone will have to wear a mask while attending class, and clean your boots off before entering the training center. I wish we would have been able to have a Christmas party and got everyone together but had to look out for the safety of the members and there family's. Hopefully in 2021 the pandemic will end and we can get back to some normalcy whatever that will look like.

Merry Christmas and Happy New Year

In solidarity, Chad Lowe

Hello Brothers and Sisters,

There is not much to report about the state of electoral politics in Iowa at the moment. The races we were waiting on last month are still in progress at the time of writing, and the next Iowa legislative session won't begin until January 11th. Looking ahead to the 2021 session, we are likely to see more attacks on labor by the Republicans at the capital since they still have control of all three branches of the state government. They've already used their power in recent years to weaken collective bargaining rights for public employees and to make it possible for union contractors to deny unemployment to apprentices while they attend class. It is likely that

there will be more damaging legislation in the works this time around so we'll keep you updated as it comes out.

In Solidarity, Wade Lester

The Des Moines Electrical Training Trust has adopted the following technical requirements to participate in Virtual Journeyman Continuing Education Courses (VJCEC). The requirements and policy adopted by the Trust meet the mandatory requirements set forth by the Iowa Electrical Examining Board for on-line continuing education courses. The Trust VJCEC participant policy will need to be signed by every participant before they can register for a VJCEC. It will be available once a VJCEC has been scheduled.

The trust has suspended all in-person classes, for both apprentices and journeymen, until at least January 22, 2021. They will reevaluate this decision at their January 13, 2021 meeting.

Technical Requirements for VJCEC are as follows:

Participants must have the following in order to participate in any virtual training courses.

1. Stable internet access, webcam, microphone and headset.

- An internet connection – broadband wired or wireless (3G or 4G/LTE). Minimum bandwidth is 600kbps (up/down) and recommended is 1.5 Mbps (up/down). Check your Internet bandwidth using www.Speedtest.com
- A webcam - one which is built-in to your computer or one that connects to your computer via USB.
- A microphone – built-in to your computer or USB plug-in or wireless Bluetooth.
- Headphones/earphones/headset – Even if your laptop or desktop has speakers, you must plug in a headset so that the sound from the speakers does not cause an echo in the WebEx meeting. Any headset with a 3.5mm plug should plug in.

2. You must be familiar with video conferencing to be able to participate in the class. Examples are:

- Be able to download WebEx and join the meeting
- Resolve basic video conferencing issues; audio, microphone, video, connection, etc.
- Mute or unmute your microphone to ask/answer questions
- Participate in online quizzes/tests
- Use the chat function in WebEx

Please note: The training center is currently awaiting approval from the Electrical Examining Board. No VJCEC have been scheduled at this time.

2021 PIN PARTY/RECOGNITION NIGHT

SATURDAY, MARCH 6, 2021

COCKTAIL HOUR: 5:30 – 6:10 PM (TBD)

DINNER SERVED: 6:10 PM

\$10.00 per person
